PROJECTS

MyBrand - Maintenance, Support Services
Feb 2020 - Mar 2020
https://mybrand.co.id/
An application for online ordering foods. Partner can add their food items and a Customer can place the order from any active nearby Partner.
Technology: Laravel, MySQL, Docker, REDIS, Lucid, JWT
Role: To resolve issues and implement new features.

Kumon
Nov 2019 - Jan 2020
An app for learning centres for children. By using this application students can enrol for subjects and play the audio lectures provided by the centres.
Technology : Laravel, MySQL, MsSQL, Lucid, JWT
Role : To develop rest API and admin panel

Kutablu

Aug 2019 - Oct 2019

An app having features to search any album, artist, track. Add to own music collections and find whenever it requires.
Technology: PHP, Laravel, MySQL, REST API, Lucid Architecture, JWT
Role: Develop rest APIs using Musicbrainz and Discogs APIs.

ViTolker

May 2019 - Jul 2019

https://vitolker.dk

ViTolker is the result of a long-standing journey in the language world, with the implementation of a myriad of successful language solutions throughout the country and outside Denmark's borders

My role was to develop API for mobile application.

Trouble Balancer

Feb 2019 - Apr 2019

It is a single page web application developed in Laravel and ReactJs for task management like "JIRA".We can easily manage project tasks, handle team, assign task to developers, reschedule task and set task priority as well.

Software company website

Dec 2018 - Jan 2019

https://semidotinfotech.com

This is software company website developed by me(backend only) in PHP-Laravel framework. I used Laravel,mysql, jQuery,ajax, JavaScript.

Be There Now

Jul 2018 - Dec 2018

https://play.google.com/store/apps/details?id=com.app.be_there_live

This is a social application for local artist. Any local artist who is not so famous can use this application to send notification for their upcoming events to their followers.
I have developed Admin panel and Api for this application in Laravel.

Everything Pregnancy

Sep 2018 - Sep 2018

https://play.google.com/store/apps/details?id=com.app.everythingpregnancy

I have integrated Stripe payment method in this application.

Group Buy Mobile App

Oct 2020 - Present

An e-commerce app where user can buy the products in a group. More the number of people in group less the amount user has to pay.
Technology: Lumen, MySQL, Docker, REDIS, Lucid, JWT, Micro-service architecture
Role: To develop API and admin panel.
