MAJOR ASSIGNMENTS

Project:	Sportsbet Stats & Insights
Client:	Sportsbet (Australia)
Front End:	PHP, HTML, CSS, Jquery, JS, Ajax
Back End:	MySql, Dynamo DB, Golang, Redis
Link:	https://www.sportsbet.com.au/

Brief description of the project:

Sportsbet Stats & Insights project is the totally based on the sports domain. Sportsbet is a biggest Australian client in sports industry. It has many sports data & Stats. In this project we manage the data around 20 years back and on the behalf of that data we create the analytical logics for calculating the stats of Team and Players. Here we calculate thousands of stats.

Project:	Expert Edge
Client:	Unibet (Australia)
Front End:	PHP, HTML, CSS, Jquery, JS, Ajax
Back End:	MySql, Redis
Link:	https://unibetlive.isportgenius.com.au/

Brief description of the project:

Expert Edge one of the most large project of my life it has many functionality and stats. In this project we interact with Unibet API's. This project is same based on sports domain. Basically this project is greater than other project because we collaborate with Unibet. And Unibet provide us live odds and other stats which is very important for this project.

Project:	Sportsbet Tipping & Game
Client:	Sportsbet (Australia)
Front End:	PHP, HTML, CSS, Jquery, JS, Ajax
Back End:	MySql, Dynamo DB, Golang, Redis
Link:	https://www.sportsbet.com.au/free-to-play-games

Brief description of the project:

This Project is also based on the sports but it is not based on the stats it's just like a Game in which users come and select the matches from particular sports and tipped for that. If all the selected picks of a user are correct user get awarded with a Prize Money according to Prizing Criteria.

Project:	Ladbrokes Info Hub
Client:	Ladbrokes (Australia)
Front End:	PHP, HTML, CSS, Jquery, JS, Ajax, Pusher (for live data)
Back End:	MySql, Dynamo DB, Golang
Link:	https://ladbrokeslive.isportgenius.com.au/match-preview https://ladbrokeslive.isportgenius.com.au/team-overview https://ladbrokeslive.isportgenius.com.au/head-2-head https://ladbrokeslive.isportgenius.com.au/sports-ladder

Brief description of the project:

Ladbrokes Infohub project is also the totally based on the sports domain. In this project we calculate the stats regarding matches, teams, players. We have around 11 to 12 sports for Ladbrokes Infohub. The main thing is data and its accuracy one of the most challenge for us and stats calculation is another big challenge because we have lots of data related to sports. This project provides the statistics for player, matches and teams.

Project:	Motoloan
Client:	Motoloan(California)

Front End:	React JS
Back End:	Redis
Link:	https://www.motoloan.com/

Brief description of the project:

Closing a sale often hinges on being able to offer customers the financing they want. With Motoloan, you get one of the most expensive selections of personal powersports finance prodcuts in the business. From traditional loans to unique leases, we make it easy to find just the right producer for each customer.

Fantasy Projects:

Project:	League11
